## OBJECTIVE

---

Aspiring software developer seeking an internship opportunity . Proficient in technical skills, eager to apply theoretical knowledge in a practical setting. Committed to learning and contributing effectively to projects and goals.

## EDUCATION

---

<b>Bachelor of Technology</b> , CMR College of Engineering and Technoogy	2021- 2025
Course: CSE(AI and ML).	CGPA: 9.0

<b>Intermediate</b> , TSRJC Sarvail.	2019 - 2021
Course: MPC.	CGPA: 9.78

## SKILLS

---

<b>Programing languages</b>	C,CPP ,JAVA.
<b>Web technologies</b>	HTML,CSS.
<b>Developer tools</b>	Visual studio,Git,Github
<b>Data management</b>	SQL

## PROJECTS

---

**Car price predictor.** Built a machine learning project using linear regression algorithm . It was helpful in predicting used car prices with 96 percent of accuracy . we used previous datasets from kaggle to train our algorithm and instead of using webpage we used GUI interface to popup the display screen to enter the inputs and get the results.

**F2C converter.** Built a non technical project using fan and copper tubes . This project is used to convert a table fan to simple cooler ,here we used copper tubes because they can easily cooled quickly and can transfer it to the aluminium fins .This project was shortlisted as top 10 projects in B2B expo conducted by our college.

## COURSEWORK UNDERGRADUATE

---

- Data structures and Algorithm.
- Computer networks.
- Machine learning.
- Operating systems.

## CERTIFICATIONS

---

- Completed certification in Zscaler Cybersecurity Fundamentals Associate Course .
- Extended certification in RPA Developer Foundation .
- Awarded with participation certifiacte in B2B expo conducted by our college.
- Completed certification on JAVA concepts provided by Infoysys.
